# AUTHOR AND TITLE INDEX TO VOLUME 71

In this Index in alphabetical order are the names of the authors of all articles, followed by the title of the article and the page numbers on which their articles begin. Page numbers in the Index refer to bold face (dark) numbers in the text.

For Subject Index see page [140-728].

## A

**Albert, S., and Podolak, E.:** Lymph nodes, serum proteins in mice with spontaneous neoplasms: II. structural changes in lymph nodes during course of spontaneous mammary cancer, 532

**Alousi, K.:** See Scott, R. F., jt. auth.

**Anderson, P. J.; Cohen, S., and Barka, T.:** Hepatic injury: histochemical study of intracytoplasmic globules occurring in liver injury, 89

**Angevine, D. M.:** See Merkow, L., jt. auth.

**Arden, A.:** See Jennings, F. L., jt. auth.

**Ashworth, C. T.; Cheers, W. C., Jr.; Sanders, E., and Pearce, M. B.:** Non-tropical sprue: fine structure of intestinal epithelial lesion, 13

## B

**Baker, R. D.:** Department of Pathology Duke University School of Medicine, 1930-1959: Appreciation of Wiley Davis Forbus, 606

**Barka, T.:** See Anderson, P. J., jt. auth.

**Belliveau, R., and Marsh, M. E.:** Effects of sodium chloride in rats fed atherogenic diet: reference to incidence of myocardial and renal infarcts, 559

**Bencosme, S. A.:** See Stone, R. S., jt. auth.

**Black, B. M.:** See Harrison, E. G., Jr., jt. auth.

**Blanke, R. V.:** See Spitz, W. U., jt. auth.

**Bo, W. J., and Rice, E. G.:** Glycogen in abnormal epithelia of human cervix, 502

**Borghard-Erdle, A. M.:** See Hirsch, E. F., jt. auth.

**Bradshaw, H. H.:** See Prichard, R. W., jt. auth.

**Brandt, H.:** See Pérez Tamayo, R., jt. auth.

**Budinger, J. M.:** Diphenylthiocarbazone blindness in dogs, 304

**Burack, W. R., and Mosimann, W. F.:** Effect of temperature on localized Schwartzman phenomenon, 175

## C

**Chears, W. C., Jr.:** See Ashworth, C. T., jt. auth.

**Clinger, D. I.:** See Miller, R., Jr., jt. auth.

**Cohen, S.:** See Anderson, P. J., jt. auth.

**Congdon, C. C., and Duda, D. B.:** Prevention of bone marrow heterografting: use of isologous thymus in lethally irradiated mice, 311

**Corey, D. L.:** See Haydon, G. B., jt. auth.

**Cotton, R., and Wartman, W. B.:** Endothelial patterns in human arteries: their relationship to age, vessel site and atherosclerosis, 3

**Culling, C., and Vassar, P.:** Desoxyribose nucleic acid: fluorescent histochemical technique, 76

## D

**Dahlin, D. C.:** See Holbert, J. A., jt. auth.

**Devine, K. D.:** See Harrison, E. G., Jr., jt. auth.

**Duda, D. B.:** See Congdon, C. C., jt. auth.

## E

**Evans, P. V.:** See Harshman, J. A., jt. auth.

**Edwards, J. E.:** See Wagenvoort, C. A., jt. auth.

## F

**Fattal, A. R.:** See Straub, M., jt. auth.

**Faulk, A.:** See Tellem, M., jt. auth.

**Fetter, B. F.:** Human cutaneous sporotrichosis: due to *Sporotrichum schenckii*; technique for demonstration of organisms in tissues, 416

**Fisher, E. R., and Gruhn, J.:** Aminonucleoside nephrosis: effect of adrenalectomy, cortisone, hypophysectomy and saline ingestion, 129

**and Masson, G. M. C.:** Renal lesions in renin proteinuria: revealed by electron microscopy, 480

**Foraker, A. G.:** See Franca, L. C. M., jt. auth.

**Franca, L. C. M., and Foraker, A. G.:** Elastic laminae and ground substance of arteriosclerotic aortas: interferometric approach, 408

**Frank, M. H.:** See McGill, H. C., Jr., jt. auth.

**Freudenthal, R. R.:** See Reiner, L., jt. auth.

## G

**Gallager, H. S.:** See Palileo, L. G., jt. auth.

**Gates, O., and Warren, S.:** Histogenesis of lung carcinoma in mice: induced by gamma radiation, 693

**Geer, J. C.:** See McGill, H. C., Jr., jt. auth.

**Gittelsohn, A. M.:** See Scott, R. F., jt. auth.

**Gold, H.:** Production of arteriosclerosis in rat: effect of x-ray and high-fat diet, 268

**Goldberg, G. M., and Saphir, O.:** Pseudo-emboli of spleen in lymphogenous leukemia, 222

**Gonatas, N. K.:** Extra-abdominal desmoid tumors: report of six cases, 214

**Goodale, K.:** See Scott, R. F., jt. auth.

**Gruhn, J.:** See Fisher, E. R., jt. auth.

## H

**Haber, M. H.:** See Jennings, R. B., jt. auth.

**Harrison, E. G., Jr.; Black, B. M., and Devine, K. D.:** Synovial sarcoma primary in neck, 137

**Harshman, J. A.; Smith, E. B., and Evans, P. V.:** Cystic lymphangiectasis of spleen, 344

**Hartroft, W. S.:** See Morgan, J. D., jt. auth.

**Haydon, G. B., and Corey, D. L.:** Platelets in thromboplastin generation test: electron microscopic studies, 615

**Herbut, P. A.; Kraemer, W. H., and McKeon, F. A.:** Human plasma Cohn Fractions and mouse tumor: effect on lymphosarcoma 6C3HED in C3H mice, 349

**Herrold, K. M.; Rabson, A. S., and Ketcham, A. S.:** Aberrant parathyroid gland in pharyngeal submucosa, 60

**Hirsch, E. F., and Borghard-Erdle, A. M.:** Innervation of human heart: 1. coronary arteries and myocardium, 384

**Hoffman, J.; Klein, A.; Miheyev, T., and Post, J.:** Responses of liver to injury:

nuclear DNA changes during evolution of 3-methyl-4-dimethylaminoazobenzene hepatomas, 202

**Holbert, J. A.; Kelly, P. J.; Peterson, L. F. A., and Dahlin, D. C.:** Osteogenic sarcoma: study using microradiography and histologic methods, 20

**Hueper, W. C.:** Carcinogens in human environment, 237; 355

## J

**Jennings, F. L., and Arden, A.:** Development of experimental radiation pneumonitis, 437

**Jennings, R. B., and Haber, M. H.:** Intraglomerular mitosis in rat nephritis: experimental antiskidney serum nephritis in rat, 330

**Jimenez, F. A.:** See Reiner, L., jt. auth.

**Joel, W.:** See Schilling, J. A., jt. auth.

## K

**Kelly, P. J.:** See Holbert, J. A., jt. auth.

**Kerenyi, N.:** Congenital adrenal hypoplasia: report of case with extreme adrenal hypoplasia and neurohypophyseal aplasia, drawing attention to certain aspects of etiology and classification, 336

**Ketcham, A. S.:** See Herrold, K. M., jt. auth.

**Kitiyakara, A.:** Cytologic study of dystrophia muscularis mouse muscles: observations on nucleic acid metabolism and nuclear distribution, 579

**Klein, A.:** See Hoffman, J., jt. auth.

**Kraemer, W. H.:** See Herbut, P. A., jt. auth.

**Kurtz, D. M.:** See Prior, J. T., jt. auth.

## L

**Lalich, J. J.:** See Merkow, L., jt. auth.

**Larson, C. P.:** See Wood, E. M., jt. auth.

**Latta, H.:** See Stone, R. S., jt. auth.

## SUBJECT INDEX TO VOLUME 71

The following Index contains an alphabetical list of significant subjects presented in this volume. Books reviewed are indexed alphabetically by title under the heading "BOOKS." Obituaries and death notices are indexed under the heading "DEATHS." Page numbers in the Index refer to bold face (dark) numbers in the text.

- A**
- Abdomen**  
simplified surgical technique for in vivo observations of pathologic changes in viscera: melioidosis pathogenesis in rabbits [Miller & Clinger], 635
- Adrenals**  
effect of adrenalectomy on aminonucleoside nephrosis [Fisher & Gruhn], 129  
hepatoadrenal necrosis: fatal systemic herpes simplex infection; review of literature and report of two cases [Tucker & Scofield], 538  
hypoplasia, congenital: and neurohypophyseal aplasia [Kerenyi], 336  
hypoplasia [Winquist], 324
- Age**  
endothelial patterns in human arteries: their relationship to vessel site, atherosclerosis and [Cotton & Wartman], 3  
juvenile liver: age at which one-cell-thick plates predominate in human liver [Morgan & Hartroft], 86
- Aminoazo dyes**  
feeding with thioacetamide, ethionine, and: Studies in hamster [Terracini & Porta], 566
- Aminonucleoside**  
nephrosis: effect of adrenalectomy, cortisone, hypophysectomy and saline ingestion [Fisher & Gruhn], 129
- Aminopeptidase**  
morphologic histochemical: studies in autopsy specimens [Rosenholtz & Wattenberg], 63
- $\beta$ -Aminopropionitrile**  
fibrillogenesis during repair of aortic injury: produced by [Merkow et al.], 654
- Anastomosis, coronary:** See under Coronary vessels
- ANNOUNCEMENTS**, 236, 470, 600
- Anthraxosis**  
and silicosis, experimental: connective tissue in [Strukov & Raikhlin], 142
- Antibodies**  
antibody production by rat spleen explants in vitro: further studies [La Via et al.], 28
- Aorta**  
arteriosclerotic: elastic laminae and ground substance of: interferometric approach [Franca & Foraker], 408  
atherosclerosis: effect of hypergamma-globulinemia on [McMillan et al.], 81  
injury produced by  $\beta$ -aminopropionitrile: fibrillogenesis during repair of [Merkow et al.], 654  
lesions, aortic, in hypertensive monkeys [McGill et al.], 96  
stenosis, aortic: congenital supraaortic: morphological study with attempt at classification [Perou], 453
- APPARATUS AND INSTRUMENTS**  
thirty-five mm. motion picture film for cytologic smears: mechanical report device [Sommer & Pickett], 669
- Appointments**  
Bly, Chauncey, G., 692  
King, Donald W., 719  
Kinney, Thomas D., 719  
McKay, Donald G., 118  
Norman, Tom, D., 692  
Sheldon, Walter H., 236
- Armed Forces Institute of Pathology**  
establish division of geographic pathology, 684  
Medical Library moves, 684
- Arteries**  
arterial changes during perinatal period [Naeye], 121  
coronary: See Coronary vessels  
endothelial patterns in human arteries: relationship to age, vessel site and atherosclerosis [Cotton & Wartman], 3  
method to study arterial profile [Pollak & Morrow], 576  
pulmonary arterial changes during perinatal period [Naeye], 121  
pulmonary, in pulmonic atresia [Wagenvoort & Edwards], 646  
pulmonary: vegetable embolization of [Vance], 621
- Arteriosclerosis**  
aid to understanding, in man?: hypercholesteremic rabbit [Prior et al.], 672  
effect of hypergamma-globulinemia on atherosclerosis [McMillan et al.], 81  
effect of pulmonary hypertension on cholesterol atherosclerosis: experimental study [Rosenthal & O'Neal], 554

## Arteriosclerosis—continued

- effects of sodium chloride in rats fed atherogenic diet: reference to myocardial and renal infarcts [Belliveau & Marsh], 559
- elastic laminae and ground substance of arteriosclerotic aortas [Franca & Foraker], 408
- endothelial patterns in human arteries: their relationship to age, vessel site and atherosclerosis [Cotton & Wartman], 3
- pathology of atherosclerosis in Mexico [Pérez Tamayo et al.], 113
- production, in rat: effect of x-ray and high-fat diet [Gold], 268

Atherosclerosis: See Arteriosclerosis

## Atresia

- pulmonic: pulmonary arterial tree in [Wagenvoort & Edwards], 646

## Autopsy

- morphologic histochemical aminopeptidase: studies in autopsy specimens [Rosenholtz & Wattenberg], 63

## AWARDS

- Distinguished Achievement, to Dr. Frank J. Dixon, Jr., 692
- Scientific Products Foundation Award to Dr. Israel Davidsohn, 600
- Ward Burdick Award to Dr. Clyde G. Culbertson, 600
- William Wood Gerhard Medal to Dr. Shields Warren, 600

- Year Book of Pathology and Clinical Pathology (1959-1960 Year Book Series) [Wartman, ed.], 601

## Brain

- tuberous sclerosis, congenital rhabdomyoma, and splenic histiocytosis: [Morales], 485

## Bronchi

- bronchogenic carcinoma, typing of: typing by examination of sputum and bronchial aspirate [Umiker], 295

## C

## Cadmium

- injury to rat testis: zinc protection against [Gunn et al.], 274

**Cancer**

- carcinogens in human environment [Hueper], 237
- mammary: structural changes in lymph nodes during course of spontaneous [Albert & Podolak], 532

**Carcinogens**

- chemicals: feeding with aminoazo dyes, thioacetamide, and ethionine: studies in hamster [Terracini & Porta], 566
- in human environment [Hueper], 237; 355

**Carcinoma**

- bronchogenic: typing by examination of sputum and bronchial aspirate [Umiker], 295
- hepatic, in rainbow trout [Wood & Larson], 471
- lung, in mice: Histogenesis of: induced by gamma radiation [Gates & Warren], 693

**Carl V. Weller lecture**

- 5th annual, Michigan Pathological Society: by J. E. Ash, 684

**Celiac disease: See Sprue****Cells, reticulum: See Reticulum****Cervix**

- glycogen in abnormal epithelia of human [Bo & Rice], 502

**Children**

- juvenile liver: age at which one-cell-thick plates predominate in human liver [Morgan & Hartroft], 86

**Cholesterol**

- atherosclerosis: effect of pulmonary hypertension on: experimental [Rosenthal & O'Neal], 554
- effect of hypergammaglobulinemia on atherosclerosis: in cholesterol-fed rabbits [McMillan et al.], 81
- hypercholesteremic rabbit: aid to understanding arteriosclerosis in man? [Prior et al.], 672

**Cohn Fractions: See Plasma****Connective tissue: See also Mast cells**

- in experimental silicosis and anthracosis [Strukov & Raikhlin], 142

**Cooley's Anemia Blood and Research Foundation for Children tissue registry, 470****Coronary vessels**

- anastomoses: interarterial coronary, in neonates [Reiner et al.], 103
- innervation of human heart: coronary arteries and myocardium [Hirsch & Borghard-Erdle], 384
- mast cells in coronary arteries: comparative study of South African Bantu and European hearts [Pepler & Meyer], 209

**Cortisone**

- effect on aminonucleoside nephrosis [Fisher & Gruhn], 129

**Cysts**

- cystic lymphangiectasis of spleen [Harshman et al.], 344

**Cytology**

- exfoliative: fluorescence microscopy in: II. application to gynecologic cytology [Liu], 286
- exfoliative: fluorescence microscopy in: I. general considerations [Liu], 282

**Cytoplasm: See Protoplasm****D****Death**

- mechanism of, in fresh-water drowning [Spitz & Blancke], 661

## SUBJECT INDEX TO VOLUME 72

The following Index contains an alphabetical list of significant subjects presented in this volume. Books reviewed are indexed alphabetically by title under the heading "Books." Obituaries and death notices are indexed under the heading "DEATHS." Page numbers in the Index refer to bold face (dark) numbers in the text.

### A

- Adenocarcinoma
  - of stomach: pulmonary asbestosis associated with [Telischi & Rubenstone], 234
- Adenoma
  - adenocystic carcinoma, cylindroma: prognosis of pseudoadenomatous basal-cell carcinoma [Smut & French], 107
  - bronchial: pulmonary asbestosis associated with [Telischi & Rubenstone], 234
- Alveolitis
  - pathogenic implications of, in pulmonary emphysema [Anderson & Foraker], 520
- American Association of Neuropathologists
  - elect officers, 378
- American Cancer Society
  - Scientific Session, 245
- American Society for Experimental Pathology
  - "Newsletter", 246
- American Society of Hematology
  - meeting, 245
- Amino acids: See also specific amino acids, as Ethionine and Methionine
  - chemical pathology of acute deficiencies of [Sidransky & Clark], 468
- Amyloid substance
  - in vessels of vascular malformation in brain [Peterson & Schulz], 480
- Anatomy
  - color preservation of gross museum specimens [McCormick], 82
  - serial sections of gross: plastic gelatin embedding technique [McCormick], 79
- Angiography
  - atherosclerosis of arteries of neck: postmortem angiographic study [Choi & Crampton], 379
- ANNOUNCEMENTS, 129, 244, 378, 489, 605, 716
- Aorta
  - arch, aortic: congenital absence of [Freedman], 375

### Aorta—continued

- atherosclerosis of human, and its coronary and renal arteries [Glagov et al.], 558
- lesions, aortic: atherosclerosis in Puerto Rico and study of early [Galindo et al.], 367

### APPARATUS AND INSTRUMENTS

- apparatus for drying frozen tissues [Benditt et al.], 546
- freeze drying or freeze solvent substitution: accurate cytochemical localization facilitated by [Sommer & Weinstein], 222
- gelatin, plastic, embedding technique for serial sections of gross anatomy [McCormick], 79

### APPOINTMENTS

- Allen, Arthur C., 490
- Dammin, Gustave J., 717
- Farber, Emmanuel, 245
- Fitch, Frank W., 245
- Hartroft, W. Stanley, 605
- Lacy, Paul E., 605
- Lupton, Charles H., Jr., 605
- O'Neal, Robert M., 717
- Perrin, Theodore L., 605
- Shepherd, William E., 245
- Skelton, Floyd R., 378

### Arizona

- canine coccidioidomycosis in [Straub et al.], 674

### Armed Forces Institute of Pathology

- postgraduate short course on "introduction to research methods", 490

### Arteries

- coronary and renal: atherosclerosis of human aorta and its [Glagov et al.], 558
- coronary: anomalous origin of both [Schulze & Rodin], 36
- inflammation: renal arteriolitis as aid in biopsy diagnosis of periarteritis nodosa [Patalano & Sommers], 1
- lesions, arterial: particulate suspension effects on experimental [Patek & Bernick], 709
- lesions of, in rats by reticuloendothelial blocking agents [Patek et al.], 70
- neck: atherosclerosis of [Choi & Crampton], 379

### Arteriosclerosis

- atheroma lesions and cholesterol: nico-

**Arteriosclerosis—continued**

- tinic acid effects on cockerels [Hunter & Wong], 465
- atherosclerosis, experimental: effect of elaidic acid on [Weigensberg et al.], 358
- atherosclerosis, human: myocardial mast cells and [Lempert et al.], 386
- atherosclerosis in Puerto Rico: study of early aortic lesions [Galindo et al.], 367
- atherosclerosis of arteries of neck [Choi & Crampton], 379
- atherosclerosis of human aorta and its coronary and renal arteries [Glagov et al.], 558

**Asbestosis, pulmonary**

- associated with primary carcinoma of lung, bronchial adenomas, and adenocarcinoma of stomach [Telischi & Rubenstone], 234

**Ascorbic acid: See Vitamin C****Atherosclerosis: See Under Arteriosclerosis****Autoradiography: See Radioautography****AWARDS: See Also Grants**

- Captain Robert Dexter Conrad Award to Howard T. Karsner, 716
- Holmes Memorial Award To Lorenz E. Zimmerman, 409
- Lederle Medical Faculty Awards To Horton A. Johnson, and Ashton B. Morrison, 245
- Minnesota Distinguished Service Award to A. H. Wells, 378
- O. Max Gardner Award to Kenneth M. Brinkhouse, 245
- Tepletz Memorial Award to Emmanuel Farber, 378
- Trudeau Medal to Selman A. Waksman, 409
- Walker Prize to Charles Huggins, and Ludwik Gross, 716

**Azo compounds**

- trypan blue treatment and irradiation in rat [Brown & Norlind], 251

**B****Bacteriology**

- study, bacteriologic: liver cell regeneration due to biliary obstruction [MacDonald & Pechet], 133

**Bile ducts**

- liver cell regeneration due to biliary obstruction [MacDonald & Pechet], 133

**Bilirubin**

- toxicity of, in adult animals: experimental study [Rozdilsky], 8

**Biopsy**

- diagnosis of periarteritis nodosa [Pat-alano & Sommers], 1

**Blood**

- circulation: consideration of some hemodynamic factors which may be related to marked differences in atherosclerotic involvement of coronary and renal arteries [Glagov et al.], 558
- clot-lysis, dietary lipids, and thrombosis: chemiopathologic studies. III [Scott et al.], 113
- coagulation: See Thrombosis
- injection, effect of, on bone marrow transplantation in lethally irradiated mice [Goodman & Congdon], 18
- lipids, serum: comparative study of effects of high-fat, choline-deficient, and high-cholesterol diets upon hepatic and [Ashworth et al.], 620

**Blood vessels: See also Angiography, and Vasomotor System**

- ascorbic acid and [Stolman et al.], 535

**Bone marrow**

- transplantation: effect of blood injection on, in lethally irradiated mice [Goodman & Congdon], 18

C

Cancer

- fellowships: Eleanor Roosevelt international, 129
- production: epithelial and stromal roles in carcinogenesis [Ashley], 86

Carbohydrates

- influence of intake of, on morphologic and biochemical changes in young rats fed theonine-or valine-devoid diets [Sidransky & Clark], 468
- phagocytosis of saccharated iron oxide: reticuloendothelial system in rabbit [Moore et al.], 51

Carcinoma

- cylindroma, adenocystic: prognosis of pseudoadenomatous basal-cell [Smout & French], 107
- jejunal, with cells resembling Paneth cells [Stern & Sobel], 47
- lung, primary carcinoma of: bronchial adenomas, and adenocarcinoma of stomach associated with pulmonary asbestosis [Telischi & Rubenstone], 234
- parathyroid: persistent hyperparathyroidism and metastatic carcinoma of [Lazar et al.], 484

Carcinosarcoma

- of lung [Privé et al.], 351

Carotid body tumor

- with recurrent lymph node metastases [Trites], 602

Cell division

- proliferation, cell, in tumor-bearing mice [Baserga & Kisielecki], 142

Children

- tumors of testis in infancy and childhood [Batsakis], 27
- tumors, primary, of liver in infancy and childhood [Abdine & Mokhtar], 216

Cholesterol

- effect of, feeding on morphology of selected endocrine glands [Bernick & Patek], 321
- effect of, feeding on rat reticuloendothelial system [Bernick & Patek], 310
- high-, diets: comparative study of high-fat, choline-deficient, and, upon serum and hepatic lipids [Ashworth et al.], 620
- high-, diets in rats: fine structural changes in liver cells after high-fat, choline-deficient, and [Ashworth et al.], 625
- nicotinic acid effect on cockerels: atheroma lesions and [Hunter & Wong], 465

Choline

- deficient diets: comparative study of high-fat, high-cholesterol, and, upon serum and hepatic lipids [Ashworth et al.], 620
- deficient diets in rats: fine structural changes in liver cells after high-fat, high-cholesterol, and [Ashworth et al.], 625

### Keratitis

nonsyphilitic interstitial: Cogan's syndrome and systemic vascular disease [Fisher & Hellstrom], 572

### Kidneys

glomerular axial region in normal and nephritic rabbit: structure of [Robertson & More], 331  
 glomerulonephritis and renal arteriolitis as aids in biopsy diagnosis of periarteritis nodosa [Patalano & Sommers], 1  
 histochemical studies of rat, after abdominal x-irradiation [Rich et al.], 388  
 metanephronic renal anlage: disturbances of [Morris & Johnson], 343  
 sclerosis, progressive systemic, and malignant hypertension: immunohistochemical study of renal lesions [Fennell et al.], 209  
 vasomotor changes of Shwartzman reaction: thorotrast effect on [Wong et al.], 280  
 wounded, culture from: by high-velocity missiles [Cavanaugh], 98

## L

### Lathyrism

reactions to injury in lathyratic rats [Bruns et al.], 512

### Leukemia Society, Inc.

five-year support program for career investigators in leukemia research, 605

### Linoleic acid

thrombogenic diets: effect on blood lipid levels in rat of purified oleic and, substituted in or added to [Scott et al.], 113

### Lipids

dietary, thrombosis, and clot-lysis: effect on blood lipid levels in rat of purified linoleic and oleic acids substituted in or added to thrombogenic diets [Scott et al.], 113  
 hepatic: comparative study of effects of high-fat, choline-deficient, and high-cholesterol diets upon serum and [Ashworth et al.], 620  
 hepatic: fine structural changes in liver cells after high-fat, high-cholesterol, and choline-deficient diets in rats [Ashworth et al.], 625

### Lipodystrophy, intestinal

histochemistry of Whipple's disease [Hellwig et al.], 274

### Lipoma

large, of left ventricle [Olsen & Tangchai], 290  
 cell regeneration due to biliary obstruction [MacDonald & Pechet], 133

- Lipoma**—continued  
 disease: See also Hepatitis  
 disease: zinc in [Van Peenen & Lucas], 700  
 hepatectomy, partial, in diet-deficient rats: growth hormone and [Aterman], 665  
 iron and xanthine oxidase levels: effects of ethionine and methionine [de Monterice et al.], 550  
 lipids, hepatic: comparative study of effects of high-fat, choline-deficient, and high-cholesterol diets upon serum and hepatic lipids [Ashworth et al.], 620  
 lipids, hepatic: fine structural changes in liver cells after high-fat, high-cholesterol, and choline-deficient diets in rats [Ashworth et al.], 625  
 peliosis hepatis: involvement of reticulo-endothelial system [Kent & Thompson], 658  
 tumors, primary, in infancy and childhood [Abdine & Mokhtar], 216  
 vascular lesions, hepatic, in mice infected with *Schistosoma mansoni* [Cheever], 648

- Lungs**  
 alveolar reticulin tissue: morphology of pulmonary [Gross], 438  
 asbestosis, pulmonary: associated with primary carcinoma of, bronchial adenomas, and adenocarcinoma of stomach [Telischi & Rubenstone], 234  
 blood supply: See Pulmonary artery  
 carcinosarcoma of [Privé et al.], 351  
 meningioma: malignant metastasizing [Noto & Gyori], 191  
 pneumonia: concept of organizing [Gross & Benz], 607
- Lymph nodes**  
 metastases: carotid body tumor with recurrent [Trites], 602

## M

- Macrophages**  
 exfoliated measles giant cells in nasal secretions [Mottet & Szanton], 434
- Mast cells**  
 myocardial, and human atherosclerosis [Lempert et al.], 386
- Measles**  
 exfoliated, giant cells in nasal secretions [Mottet & Szanton], 434
- Meningioma**  
 malignant metastasizing [Noto & Gyori], 191
- Metabolism**  
 inborn error of: idiopathic neonatal hemochromatosis in siblings [Lauren-deau et al.], 410
- Methionine**  
 effects of, on liver iron and xanthine

- Methionine**—continued  
 oxidase levels [de Monterice et al.], 550

- Methylcholanthrene**  
 lesions in respiratory tract with intratracheal administration in ducks [Rigdon & McNeely], 455

- Microscopy**  
 electron: of glycogen infiltration in islets of cat [Williamson & Lacy], 637  
 electron: viral hepatitis under, microscope [Gueft], 61  
 phase: preparing teased tissue for intracellular structure localization [Sommer & Weinstein], 222

- Missiles, high-velocity**  
 culture from kidneys wounded by [Cavanaugh], 98

- Mitral value**  
 obstruction: experimental mitral valvular [Imai & O'Neal], 688

- Morphology**  
 cholesterol feeding, effect of, morphology of selected endocrine glands [Bernick & Patek], 321  
 irradiation and trypan blue treatment in rat: morphologic, serologic and hematologic observations [Brown & Norlind], 251

- Muscular dystrophy**  
 osteoporosis in dystrophic mice [Ershoff et al.], 599

- Museum specimens**  
 color preservations of gross [McCormick], 82

- Myocardium**  
 mast cells, myocardial, and human atherosclerosis [Lempert et al.], 386

## N

- Neck**  
 atherosclerosis of arteries of [Choi & Crampton], 379

- Nephritis: See also Glomerulonephritis**  
 glomerular axial region in normal and nephritic rabbit: structure of [Robertson & More], 331

- New Jersey Society of Pathologists and Middle Eastern Region of College of American Pathologists; joint meeting,** 489

- NEWS AND COMMENTS,** 129, 244, 378, 409, 489, 605, 716

- Nicotinic acid**  
 effect on cockerels: cholesterol and atheroma lesions [Hunter & Wong], 465

- Nose**  
 exfoliated measles giant cells in nasal secretions [Mottet & Szanton], 434

## O

- Oleic acid**  
thrombogenic diets: effect on blood lipid levels in rat of purified linoleic and, substituted in or added to [Scott et al.], 113
- Osborne A. Brines scholarships**  
for medical technologists, 129
- Osteitis fibrosa**  
biophysical study of von Recklinghausen's disease of bone [Ascenzi & Marinuzzi], 297
- Osteoporosis**  
in dystrophic mice: protective effect of testosterone propionate and estradiol benzoate administration [Ershoff et al.], 599
- Oxidases**  
xanthine oxidase levels and liver iron [de Monterice et al.], 550

## P

- Pancreas**  
electron microscopy of glycogen infiltration in islets of cat: effects of repeated injections of glucose [Williamson & Lacy], 637
- Paneth cells**  
jejunal carcinoma with cells resembling [Stern & Sobel], 47
- Parathyroid glands**  
diseases: See also Osteitis fibrosa  
metastatic carcinoma of, and persistent hyperparathyroidism [Lazar et al.], 484
- Particulate suspension**  
effects on experimental arterial lesions [Patek & Bernick], 709
- Pathology**  
Cogan's syndrome and systemic vascular disease: analysis of pathologic features [Fisher & Hellstrom], 572  
Colorado tick fever in experimental animals [Miller et al.], 149  
journal, new international: **EXPERIMENTAL AND MOLECULAR PATHOLOGY**, 717  
methods, pathologic, for study of congenitally malformed heart [Lev et al.], 493
- Peliosis: See Purpura**
- Periarteritis nodosa**  
biopsy diagnosis of [Patalano & Sommers], 1
- Phagocytosis: See also Macrophages**  
of saccharated iron oxide: reticuloendothelial system in rabbit [Moore et al.], 51

## Plastics

gelatin, plastic, embedding technique: serial sections of gross anatomy [McCormick], 79

## Pneumonia

murine, chronic, in experimental laboratory [Newberne et al.], 224  
organizing: concept of [Gross & Benz], 607

## Podophyllum

effects of podophyllin on epithelial tissues: animal and tissue culture studies [Standish & Shafer], 166

## Poisons and poisoning

reactions to injury in lathyrus rats [Bruns et al.], 512

## Polyvinyl sponge implants

formation and maintenance of connective tissue and blood vessels within, in ascorbic acid supplemented and ascorbic acid depleted guinea pigs [Stolman et al.], 535

**Preservation, color: See Color preservation**

## Prognosis

of pseudoadenomatous basal-cell carcinoma: cylindroma, adenocystic carcinoma [Smout & French], 107

**Progressive systemic sclerosis: See Sclerosis, progressive systemic**

## Puerto Rico

atherosclerosis in: study of early aortic lesions [Galindo et al.], 367

## Pulmonary artery

medial hypertrophy and hyperplasia in cat: incidence in pulmonary artery branches [Scratcherd & Wright], 703

## Pulmonary emphysema

pathogenic implications of alveolitis in [Anderson & Foraker], 520

## Purpura

peliosis hepatitis: involvement of reticuloendothelial system [Kent & Thompson], 658

## R

## Radiation

abdominal x-irradiation: histochemical studies of rat kidney after [Rich et al.], 388  
effect of blood injection on bone marrow transplantation in lethally irradiated mice [Goodman & Congdon], 18  
irradiation and trypan blue treatment in rat [Brown & Norlind], 251

## Radioactivity

fallout effects on skin: effects of, on skin of Alamagordo cattle [Tessmer], 175

- Radioautography**  
 cell proliferation in tumor-bearing mice [Baserga & Kisielecki], 142  
 liver cell regeneration due to biliary obstruction: autoradiographic, bacteriologic, and histologic studies [MacDonald & Pechet], 133  
 tissue reaction to subcutaneous tumor implants in mice: autoradiographic study of [Harwood et al.], 697
- Rats**  
 chronic murine pneumonia in experimental laboratory [Newberne et al.], 224
- Recklinghausen's disease of bone:** See Osteitis fibrosa
- Regeneration**  
 liver cell, due to biliary obstruction: autoradiographic, bacteriologic and histologic studies [MacDonald & Pechet], 133
- Respiratory tract:** See also Lungs  
 lesions in, with intratracheal administration: lesions in ducks given methylcholanthrene [Rigdon & McAnelly], 455
- Reticulin**  
 morphology of pulmonary alveolar, tissue [Gross], 438
- Recticuloendothelial system**  
 alterations of, and induced inflammation: effect of Freund's adjuvant on sarcoma-180 in mice [Schoenberg & Moore], 446  
 blocking agents, reticuloendothelial: arterial lesions in rats by [Patek et al.], 70  
 cholesterol feeding, effect of, on rat [Bernick & Patek], 310  
 peliosis hepatis: involvement of [Kent & Thompson], 658  
 phagocytosis of saccharated iron oxide: rabbit's [Moore et al.], 51
- Roentgen rays:** See Radiation
- S**
- Sarcoma:** See also Carcinosarcoma  
 -180 in mice: effect of Freund's adjuvant on [Schoenberg & Moore], 446  
 osteogenic, of uterus [Carleton & Williamson], 121
- Schistosoma mansoni**  
 hepatic vascular lesions in mice infected with [Cheever], 648
- Sclerosis**  
 progressive systemic, and malignant hypertension [Fennell et al.], 209
- Serial section study**  
 of gross anatomy [McCormick], 79
- Serology**  
 irradiation and trypan blue treatment in rat: morphologic, serologic and hematologic observations [Brown & Norlind], 251
- Shwartzman reaction**  
 thorotrast effect on vasomotor changes of [Wong et al.], 280
- Silo filler's disease**  
 relapse following latent period [Rafi & Godwin], 424
- Skin**  
 radioactive fallout effects on [Tessmer], 175  
 transplanted, internally, and component parts separated by tryptic digestion: histological changes and ultimate fate of [Ashley], 86
- Somatotropin**  
 growth hormone and partial hepatectomy in diet-deficient rats: effect on hepatic necrosis produced by deficient diet [Aterman], 665
- Stains and staining**  
 fluorescein-globulin staining of tumor transplants [Louis], 593
- Stomach**  
 adenocarcinoma of: pulmonary asbestosis associated with [Telischi & Rubenstein], 234
- Sugars:** See Carbohydrates
- Teratogenetic theories:** See under Genetics
- Testis**  
 tumors of, in infancy and childhood [Batsakis], 27
- Testosterone propionate**  
 protective effect of estradiol benzoate administration and, on osteoporosis [Ershoff et al.], 599
- Thorium**  
 thorotrast effect on vasomotor changes of Shwartzman reaction [Wong et al.], 280
- Threonine**  
 devoid diets: influence of carbohydrate intake on morphologic and biochemical changes in young rats fed [Sideransky & Clark], 468
- Thromboangiitis obliterans**  
 Cogan's syndrome and systemic vascular disease: analysis of pathologic features with reference to its relationship to [Fisher & Hellstrom], 572
- Thrombosis**  
 arterial, production by systemic procedures in rabbit [Constantinides & Chakravarti], 197  
 dietary lipids, and clot-lysis: chemico-pathologic studies [Scott et al.], 113

Tick fever, Colorado: See Colorado tick fever

Tissues: See also Connective tissue, Epithelium

frozen: apparatus for drying [Benditt et al.], 546

morphology of pulmonary alveolar reticulin tissue [Gross], 438

reaction to subcutaneous tumor implants in mice: autoradiographic study of [Harwood et al.], 697

teased, preparing, for intracellular structure localization [Sommer & Weinstein], 222

#### Toxins

bilirubin in adult animals: experimental study on toxicity of [Rozdilsky], 8

#### Transplantation

bone marrow: effect of blood injection on, in lethally irradiated mice [Goodman & Congdon], 18

polyvinyl sponge implants: formation and maintenance of connective tissue and blood vessels within, in ascorbic acid supplemented and ascorbic acid depleted guinea pigs [Stolman et al.], 535

skin, internally transplanted, and component parts separated by tryptic digestion: histological changes and ultimate fate of [Ashley], 86

tumor implants in mice: autoradiographic study of tissue reaction to subcutaneous [Harwood et al.], 697  
tumor transplants: fluorescein-globulin staining of [Louis], 593

Trypan blue: See under Azo compounds

#### Trypsins

histological changes and ultimate fate of internally transplanted skin and component parts separated by tryptic digestion [Ashley], 86

#### Tumors

cell proliferation in tumor-bearing mice [Baserga & Kiseleski], 142

primary, of liver in infancy and childhood [Abdine & Mokhtar], 216

subcutaneous, implants in mice: autoradiographic study of tissue reaction to [Harwood et al.], 697

testis in infancy and childhood [Batsakis], 27

transplants: fluorescein-globulin staining of [Louis], 593
